

CAMILLE OBEDOZA

Project Coordinator | Process Improvement | Digital Marketing, Supply Chain & Logistics
camilleobedoza26@gmail.com | <https://camilleobedoza.github.io/Portfolio/> | <https://www.linkedin.com/in/camilleobedoza/>

PROFESSIONAL SUMMARY

Applied Mathematics and Business Management graduate specializing in supply chain, operations, and analytics. Combines inventory and warehouse process improvement experience with strong quantitative skills, Excel-based tracking, dashboard development, and a practical understanding of how accurate information supports purchasing, storage, replenishment, and service.

SELECTED PROJECT LEADERSHIP

Surplus Inventory Process Improvement Project | Project Lead

- Led a supply-chain improvement project for PCC Facilities Management focused on surplus-inventory challenges.
- Coordinated with Facilities, Receiving, and Sales to identify workflow gaps, bottlenecks, and accountability issues.
- Developed process maps, tracking systems, standardized labels, storage zones, and an implementation plan.
- Proposed improvements projected to reduce excess inventory by 15–25%, improve warehouse space utilization by 10–20%, and reduce untracked items by up to 20%.

Global Sourcing and Logistics Manual | Project Lead

- Led the research, organization, and development of a 78-page manual covering international logistics procedures, shipping requirements, workflows, and operational best practices.
- Structured complex logistics information into a clear reference document covering the movement of goods across different stages.
- Managed content development, document organization, revisions, and final presentation using Canva.

SOP Development & Workflow Documentation Project | Project Lead

- Led the creation of SOPs and workflow diagrams to standardize operational procedures and improve process consistency.
- Documented step-by-step procedures, decision points, responsibilities, required resources, and process handoffs.
- Consolidated the project deliverables into an implementation-ready document to support training, accountability, and consistent execution.

Doctor J-Slips | Project Lead

- Led the planning and execution of a marketing project from concept development to final video presentation.
- Coordinated project tasks, content development, team contributions, and final deliverables.
- Organized the project workflow to ensure the marketing output was completed clearly and on schedule.

EXPERIENCE

Retail Sales Associate August 2022 – August 2024
Polynesian Cultural Center, Laie, HI, U.S.A.

- Maintained and updated inventory tracking systems using Excel, improving stock accuracy by 95% through structured data management practices.
- Trained and coached 10+ new associates on store systems and customer service processes, increasing team efficiency and reducing operational errors by 40%.
- Managed transactions, responded to customer inquiries, and supported daily sales reporting, inventory reconciliation, and transaction accuracy.

Institutional Research Data Visualization Developer June 2025 – June 2026
Brigham Young University - Hawaii, Laie, HI, U.S.A.

- Built and maintained 10+ dashboards in Tableau, Power BI, and Domo using Qualtrics and Student Information System data, helping university leadership access insights faster.
- Cleaned, transformed, and standardized 10+ institutional datasets using Excel and Power Query to improve reporting accuracy and accelerate dashboard preparation.
- Partnered with deans, program leads, and other stakeholders to clarify reporting needs, validate outputs, prepare reports, and resolve data and reporting concerns.

Math Teaching Assistant September 2024 – June 2025
Brigham Young University - Hawaii, Laie, HI, U.S.A.

- Led small-group quantitative problem-solving sessions for 30+ students, contributing to a 15% improvement in average lab scores.
- Designed supplemental learning resources and practice datasets to support data analysis and mathematical modeling concepts.
- Typed mathematical notes, formatted research proposals, and created lab instruction materials in LaTeX for a faculty mentor.

EDUCATION

Bachelor of Science in Applied Mathematics (Data Science) 2022 – 2026
Bachelor of Science in Business Management (Supply Chain, Operations, & Analytics)

Brigham Young University - Hawaii, Laie, HI

- GPA: 3.93 / 4.0
- Honors and Awards: Summa Cum Laude, Dean's List (2022–2026), Academic Scholarship Recipient
