

CAMILLE OBEDOZA

Project Management & Coordination | Operations & Process Improvement | Data Analysis & Documentation
camilleobedoza26@gmail.com | <https://camilleobedoza.github.io/Portfolio/> | <https://www.linkedin.com/in/camilleobedoza/>

PROFESSIONAL SUMMARY

Applied Mathematics and Business Management graduate with a focus on supply chain, operations, and analytics. Experienced in transforming multi-year and operational data into clear dashboards, reports, and practical insights using Power BI, Tableau, Excel, Domo, SQL, and Python. Skilled in data cleaning, validation, visualization, trend analysis, forecasting, documentation, and process improvement. Through institutional research, inventory, and supply-chain projects, developed the ability to work with stakeholders, understand business needs, organize data, and communicate findings clearly. Adaptable, detail-oriented, and eager to contribute to data-driven decision-making in a large-scale food manufacturing and supply-chain environment.

CORE CAPABILITIES

Data Analytics: Data cleaning and validation, exploratory data analysis, trend analysis, forecasting, statistical analysis, mathematical modeling, data interpretation

Data Visualization: Power BI, Tableau, Excel dashboards, Domo, report development, KPI reporting, data storytelling

Data Management: Data organization, data quality checks, structured records, inventory tracking, documentation, process mapping, data governance awareness

Technical Tools: SQL, Python, Microsoft Excel, Microsoft 365, Google Workspace, MATLAB, Wolfram Mathematica, Qualtrics

Business and Operations: Supply chain, inventory analysis, process improvement, workflow documentation, requirements gathering, cross-functional collaboration

PROFESSIONAL EXPERIENCE

Institutional Research Data Visualization Developer

June 2025 – June 2026

Brigham Young University - Hawaii, Laie, HI, U.S.A.

- Coordinated reporting and dashboard projects by gathering requirements, clarifying stakeholder needs, organizing feedback, validating outputs, and resolving reporting concerns.
- Built and maintained 10+ dashboards in Tableau, Power BI, and Domo using Qualtrics and Student Information System data for university leadership, deans, and program leads.
- Cleaned, transformed, and standardized 10+ institutional datasets using Excel and Power Query to improve reporting accuracy and accelerate dashboard preparation.
- Documented workflows, created user guides, supported dashboard quality assurance and access controls, and explained processes to technical and nontechnical users.
- Researched and tested a repeatable workflow for connecting Qualtrics survey data to Power BI using Python and the Microsoft On-premises Data Gateway.

Math Teaching Assistant

September 2024 – June 2025

Brigham Young University - Hawaii, Laie, HI, U.S.A.

- Led small-group quantitative problem-solving sessions for 30+ students, contributing to a 15% improvement in average lab scores.
- Designed supplemental learning resources and practice datasets to support data analysis and mathematical modeling concepts.
- Typed mathematical notes, formatted research proposals, and created lab instruction materials in LaTeX for a faculty mentor.

Retail Sales Associate

August 2022 – August 2024

Polynesian Cultural Center, Laie, HI, U.S.A.

- Maintained and updated inventory tracking systems using Excel, improving stock accuracy by 95% through structured data management practices.
- Trained and coached 10+ new associates on store systems and customer service processes, increasing team efficiency and reducing operational errors by 40%.

- Managed transactions, responded to customer inquiries, and supported daily sales reporting, inventory reconciliation, and transaction accuracy.

EDUCATION

Bachelor of Science in Applied Mathematics (Data Science)

2022 – 2026

Bachelor of Science in Business Management (Supply Chain, Operations, & Analytics)

Brigham Young University - Hawaii, Laie, HI

- GPA: 3.93 / 4.0
- Honors and Awards: Summa Cum Laude, Dean's List (2022–2026), Academic Scholarship Recipient
- Relevant coursework: Project Management, Operations Management, Global Logistics, Business Analytics, Supply Chain, Probability and Mathematical Statistics, Mathematical Methods and Modeling

CERTIFICATIONS AND TOOLS

- **Certification:** [TESOL Certified](#), [SQL Certified](#), [Data Engineering Trained](#), [Machine Learning Trained](#)
- **Project and collaboration:** Trello, Monday.com, Miro, Google Workspace, Microsoft 365, Canva, Calendly
- **Data and analytics:** Excel, Power Query, SQL, Python, MATLAB, Mathematica/Wolfram, Power BI, Tableau, Domo, Qualtrics
- **Documentation:** SOPs, process maps, workflow diagrams, user guides, training materials, LaTeX

SELECTED PROJECT LEADERSHIP

- [Doctor J-Slips](#) | *Project Lead*
- [General Warehouse Operations and Surplus Inventory Project](#) | *Project Lead*
- [Global Sourcing and Logistics Manual](#) | *Project Lead*
- [SOP Development and Workflow Documentation Project](#) | *Project Lead*
