

# **Power BI Dashboard User Guide**

January 2026

# Table of Contents

## ● Overview

What Power BI dashboards are, who this guide is for, and what users can expect.

## ● Access & Navigation

How to log in to Power BI, where dashboards are located, and how to access shared dashboards

## ● Available Dashboards & User Guides

An overview of the dashboards produced by the Institutional Research team, with links to individual dashboard guides that explain their purpose, filters, and interactions.

## ● Exporting & Getting Help

How to export dashboards to PDF or Excel (if permitted), sharing guidelines, and who to contact for questions or technical issues.

# Overview

- Power BI dashboards are used for visualizing and analyzing data, enabling BYUH faculty and administration to make informed decisions.
- This guide helps users understand how to access and navigate Power BI dashboards, apply filters, interact with visuals, and export information for use in reports or presentations. The dashboards display aggregated and de-identified data intended to support institutional analysis and informed decision-making.
- For questions regarding data interpretation, access, or dashboard functionality, users should contact the Institutional Research Office.

[Accessing Shared Dashboards](#)

# How to Log In

1. Go to Power BI sign-in page:
  - <https://app.powerbi.com/>
2. Sign in using your BYUH email address
  - If you have been granted access, you will be redirected to the BYUH login page.
  - Enter your BYUH username and password to continue.
3. Once logged in, you will be taken directly to Power BI.

Microsoft Sign-In Page

BYUH Sign-In Page

# After Logging In

You will be taken to the Power BI Home page, where you can access reports, apps, and workspaces you have permission to view.

## Home

Shows your recent and recommended reports and dashboards.

## Apps

Shows collections of reports and dashboards that have been shared with you.

Power BI Home Page

# Accessing Shared Dashboards

Shared dashboards can be accessed in one of two ways:

## From the Power BI Home page

- Select **Apps** and open the app containing the dashboard.
- You may also view **featured apps** from the Home page by changing the page layout to **Expanded**.

## Using a shared link

- If you receive a direct link, selecting it will open the dashboard in Power BI after you sign in.

[Available Dashboards](#)

# Dashboard User Guide

Our team produces multiple dashboards, each serving a specific purpose. These dashboards are intended for President Councils, Deans, Program Leads, and other institutional decision-makers. While layouts and filters may vary by dashboard, the core navigation and interactions are largely the same.

[About the Data](#)

# Using Filters – Filter Slicers

Slicers are located near the top of each dashboard.

## How to use them:

- Click the drop-down arrow on a slicer (e.g., Academic Year, Gender, Ethnicity).
- Select one or more values from the list by holding down “Ctrl” (or Command on Mac) and clicking on the different fields.
- The visuals on the page update automatically based on your selection.

# Using Filters – Visual Interaction

How to filter using a chart:

- **Click on any bar, column, or data point** in a chart.
- All other visuals on the page will **automatically update** to show data related to your selection.

Helpful tips:

- Click once on a bar or data point to filter the page by that value.
- Hold **Ctrl** and click to select **multiple values**.
- Click the same bar again or click on a **blank area** of the chart to clear the filter.

This allows you to explore the data quickly without using slicers.

# About the Data

- Data may be updated as new information becomes available
  - Numbers may change over time as data is refreshed
  - Dashboards reflect the most current data at the time of viewing
- ① Updates help ensure data accuracy and completeness.

# Available Dashboards

- Student Perspective Survey
- Faculty Climate Survey
- Holokai Student Survey
- Holokai Stakeholder Survey
- Enrollment Dashboard
- Fall Enrollment Dashboard
- Completions Dashboard
- Graduating Student Survey

# Dashboard Access by Audience

What you see depends on your role. Dashboards are automatically filtered to show only the data you have access to.

## Who Can See What?

### President's Council

- All dashboards
- All faculties
- All programs

### Faculty Deans

- Dashboards for their faculty
- Programs under their faculty

### Program Leads

- Dashboards for their own program

If you don't see a dashboard, it may be outside your assigned role. But if you need additional data, contact us or see [Getting Help](#).

# Data Access and Support

Jump to:

[Data Access and Requests](#)

[Getting Help](#)

# Data Access

To export dashboard data, select **Export** in the top menu and choose the format that best fits your needs.

- Analyze in Excel – Further analysis
- PowerPoint – Presentations
- PDF – Sharing or printing

# Getting Help

For dashboard questions, data requests, or other Institutional Research services, please submit a ticket by completing the

## [Institutional Research Service Form](#)

You may also contact us by email with questions or follow-up requests:

- Institutional Research department: [iresearch@byuh.edu](mailto:iresearch@byuh.edu)

The screenshot shows the 'Institutional Research Service Request' form on the BYU Hawaii website. The header is red with 'BYU HAWAII' and 'Academic Administration Institutional Research' text. Below the header is a navigation bar with 'Home', 'Services', and 'Knowledge Base'. The form title is 'Institutional Research Service Request' with a '+ Show Help - Hide Help' link. The form includes fields for 'Title \*', 'Email Address', and 'Phone Number \*'. Below these is a 'Type of Service(s)' dropdown menu with a search bar and a list of options: 'Data Report/Analysis', 'Program Review Data', 'Survey Design/Administration', 'Consultation/Advisory', 'Training/Workshop', 'Institutional Accreditation Support', and 'Others (Please Specify)'. The 'Data Report/Analysis' option is highlighted.
